## MEDIA BUREAU ACTION

### MEDIA BUREAU SEEKS COMMENT ON TIVO INC.'S PETITION FOR WAIVER OF CERTAIN "CABLE READY" REQUIREMENTS

MB Docket No. 11-105

**Comment Date: July 25, 2011**

**Reply Comment Date: August 9, 2011**

TiVo Inc. ("TiVo") has filed a petition requesting that the Commission waive certain "Cable Ready" certification, marketing, and labeling rules as they pertain to TiVo's new video recording product, the Premiere Elite.<sup>1</sup> The Premiere Elite is a CableCARD-enabled digital video recorder, designed specifically for use with all-digital cable systems.<sup>2</sup> TiVo seeks waiver of three of the Commission's rules with respect to the Premiere Elite: (1) Section 15.118(b), which requires cable-ready consumer electronics equipment to be capable of receiving analog NTSC channels 1 through 125,<sup>3</sup> (2) Section 15.123(b)(1), which requires all unidirectional digital cable products to be capable of tuning NTSC channels transmitted in the clear, and (3) Section 15.123(c), which outlines tests and standards that unidirectional digital cable products must satisfy before going to market.<sup>4</sup>

Section 15.118(b)'s requirement that cable-ready devices be capable of tuning NTSC channels was adopted in 1994,<sup>5</sup> and the digital cable ready rules for certification, marketing and labeling were adopted in 2003 to create a uniform standard for labeling and testing devices capable of receiving cable service without a set-top box.<sup>6</sup> TiVo claims that these requirements as applied to the Premier Elite hinder innovation, increase costs to customers and serve as an unnecessary barrier to the market for all-digital
